Quicker Compression Testing

Lincoln, who acquired the Mityvac line last year, introduces the Mityvac Professional Compression Test Kit for performing wet and dry compression tests in the diagnosis of worn piston rings, cylinders, valve-train damage and blown head gaskets. The kit features:

- An air hold quick connector that can be attached to the air supply for performing valve stem seal replacement without removing the cylinder head.
- A heavy-duty 2-3/4" gauge with a high impact lens, rubber boot and 3 scales of measure (PSI, kg/cm² and Bar).
- An attached 10" whip hose and coupler for quicker set-up.
- Packaged in a custom blow-molded case.
- Comes with extension hoses and an assortment of 10 mm, 12 mm, 14 mm and 18 mm short and long-reach adapters.
